

# Security Management Resources, Ltd

An SMR Group Company

## POSITION ANNOUNCEMENT

**SMR Group** is an international executive search firm whose global practice is focused exclusively on professional and executive level corporate security positions, is seeking candidates for the following opportunity.

**Position:** Corporate Security Analyst  
**Location:** Switzerland

The Corporate Security Analyst has the responsibility to protect business operations and associates throughout the organization from external threats by the collection, analysis and dissemination of strategic and tactical threat assessments, and production of both analytical and intelligence products designed to support investigations and protective security operations.

### Responsibilities

- *Risk Management:* Lead the delivery of intelligence led security operations. Produce strategic and tactical threat assessments supported by analytical products. Present at meetings and within publications designed to deliver the strategy.
- *Investigations:* Analyze crimes and incidents against the organization. Provide support to internal investigations, and externally develop and maintain relationships and information sharing agreements with competent authorities and key stakeholders.
- *Intelligence:* Formulate, monitor and review information sources. Produce quality intelligence products to protect and support the business and its associates. Implement and maintain continuous briefing systems.
- *Protective Security:* Design, implement, monitor and review systems and processes to analyze the threat, and deliver recommendations to mitigate risk to vulnerable locations and persons. Produce Business Community Impact Assessments.
- *Policies and Guidelines:* Support the definition and maintenance of Corporate Security regulations related to risk management and investigations. Ensure all activities are of the highest legal and ethical standards. Produce, publish and promote Corporate Security policy and guidance.
- Maintains a broad understanding of corporate threats and societal trends and identifies what effect they will have on the organization. Creates processes that make sure stakeholders and customers views and needs are identified and responded to.
- Displays strategic perspective in the analysis and assessment of threats against an organization.
- Manages confidential information and data in accordance with the law and corporate policy.
- Produces analytical and intelligence products to support investigations and protective security operations.
- Evaluates and improve organizational performance by supporting the implementation of security strategies.

**Security Management Resources** is an international executive search firm with global niche market expertise focused exclusively on professional and executive level corporate security positions. SMR's principals and associates all have significant senior level management experience managing corporate security programs across a wide range of industries for some of the world's leading organizations.
